

A large industrial facility, likely a refinery or chemical plant, featuring tall blue distillation columns, complex piping, and yellow safety railings. A prominent red and white striped chimney is visible on the left. The sky is blue with scattered white clouds. The text "Industrial climbing services" is overlaid in the center in a large, white, sans-serif font.

# Industrial climbing services

**SINTEL**

# A RANGE OF WORKS

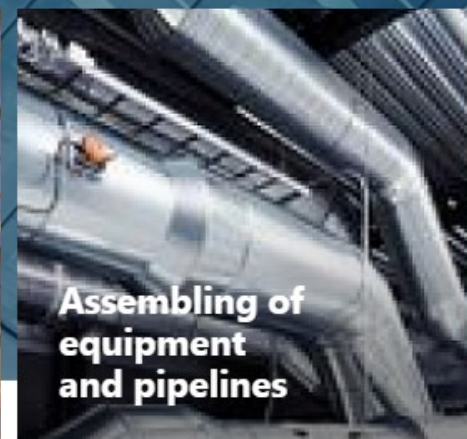

A range of company industrial services was formed gradually over a long period of work in the field of construction at the facilities of oil-and-gas, heat-and-power, chemical and metallurgical complexes.

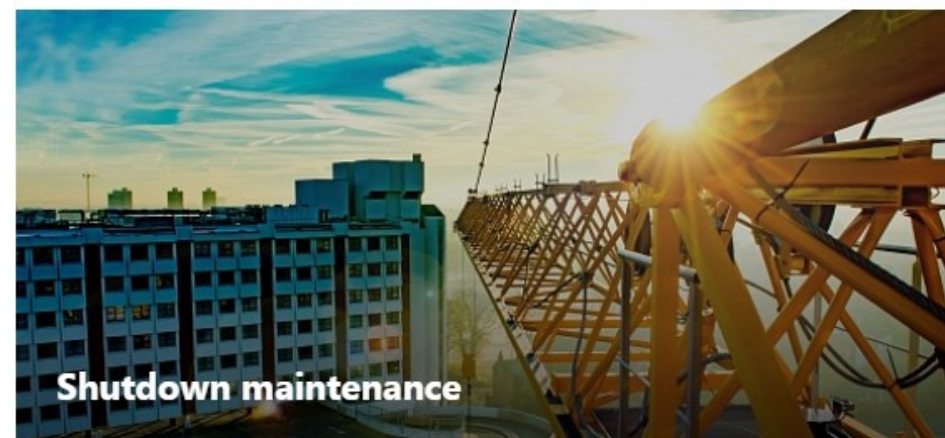

**Anti-corrosive  
protection of metal  
structures**

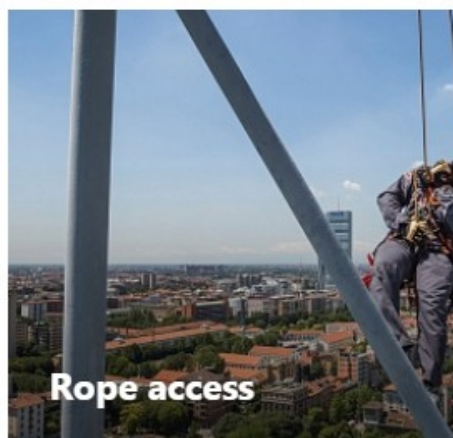

**Thermal insulation of equipment  
and pipelines**

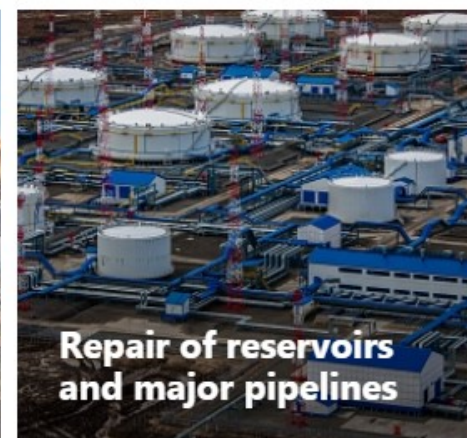

**Assembling of  
equipment  
and pipelines**

**Shutdown maintenance**

**Rope access**

**Repair of reservoirs  
and major pipelines**

## OIL AND GAS INDUSTRY

- assembling, repair and anti-corrosive protection of tanks, reservoirs for various purposes (oil products, corrosive solutions, water)
- repair and anti-corrosive protection of major pipelines (gas pipelines, oil pipelines, oil-products pipeline)
- repair of pipeline damages using a composite coupling method
- repair and anti-corrosive protection of high-altitude objects, communication masts, lightning rods

## CHEMICAL AND PETROCHEMICAL INDUSTRY

- repair of reservoirs, cooling towers
- assembling of technological equipment and pipelines for various purposes (water, steam, oil, gas)
- pipeline welding
- lining work in the repair of exhaust pipes, air ducts, pipes aspiration system
- assembling, repair and anti-corrosive protection of metal structures
- shutdown maintenance, acid-resistant and chemical protection of reinforced concrete and metal structures

## ENERGETICS

- assembling, repair of equipment and pipelines at power facilities: TPP, cooling towers
- repair, painting and disassembling of reinforced-concrete, brick, metal chimneys, exhaust towers, pilling towers, reservoirs, cooling towers (up to 200 m high)
- thermal insulation of pipelines, reservoirs, tanks
- inspection of reinforced-concrete, brick, metal chimneys, cooling towers, technical statements are to be issued

## ABOUT COMPANY

LLC Sintel is a construction enterprise with a **11 year** expertise in the field resulting in a vast experience. We deliver sustainable, high-performance maintenance as well as other construction services for the sectors of oil and gas recovery, heat and power engineering, chemical production and metallurg.

- Over **250 completed projects** of varying complexity.
- Over **100 positive references** and letters of appreciation.
- Employing over a **hundred of staff** .

The services that has been provided for 5 years:

- **Corrosion protection and metal works painting – 130 000 m2,**
- **Maintenance of smoke pipes – 2,7 km .**

To get the consultation:

phone/fax: +375(17)2-109-104

• phone: +375(29)1-503-503

**SINTEL**

## OUR ADVANTAGES

- Ability to complete large scale projects **in the shortest possible time**.
- Readiness **to meet the customer as frequently as needed** .
- **Flexible pricing policy**.
- Full package of **permission documentation** to entertain large scale projects .

### OUR PARTNERS:

**Grodno Azot**  
JOINT STOCK COMPANY

To get the consultation:

phone/fax: +375(17)2-109-104

• phone: +375(29)1-503-503

# PERFORMANCE

## Project:

Current repair VST - 50000 m3 № 10 LODS «Polotsk»

## Client:

OJSC «Polotsktransneft Druzhba», Republic of Belarus

## Project:

Rack maintenance task

## Client:

OJSC «Gomel Chemical Plant», Republic of Belarus

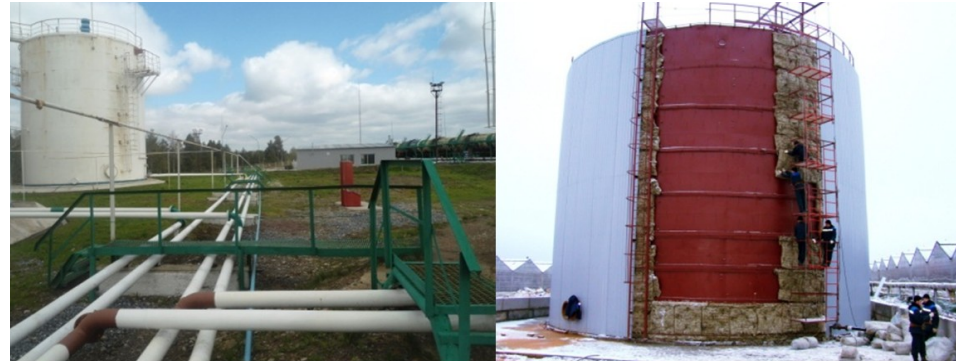

## Project:

Construction and assembling works at the facility OJSC «Mozyr Oil Refinery» under the Contractor's Agreement according to the project: «Heavy Residue Hydrocracking Unit Complex. An integrated Hydrocracking Unit. OJSC «Mozyr Oil Refinery»

## Client:

OJSC «Mozyr Oil Refinery», Republic of Belarus

## Project:

Construction and installation task on thermal insulation and corrosion protection of storage tanks for oil storage with a volume of 2400 m3 for the project «Construction of a production and agro-logistics terminal in Smorgon»

## Client:

LLC «Belagroterminal», Republic of Belarus

To get the consultation:

phone/fax: +375(17)2-109-104

• phone: +375(29)1-503-503

**SINTEL**

# PERFORMANCE

## Project:

Repair and construction task at the facility «Repair of the metal tower with restoration of the signal coating»

## Client:

OJSC «Gazprom transgas Belarus», Republic of Belarus

## Project:

Anticorrosive protection of the medium pressure gas pipeline in Zazhevichi ag. Soligorsk district

## Client:

PRUE Minskoblgas, Republic of Belarus

## Project:

Thermal insulation of technological pipelines of a binding of the equipment under the project of firm "Linde" on object «Construction of an air separation plant in Zhlobin»

## Client:

OJSC «BMZ - management company of the holding» BMK», Republic of Belarus

## Project:

Reconstruction of cooling tower №6 of the DMT-4 water recycling system at the water supply and sewage workshop of the chief power engineer of Mogilevkhimvolokno OJSC

## Client:

OJSC «Mogilevkhimvolokno», Republic of Belarus

To get the consultation:

phone/fax: +375(17)2-109-104

• phone: +375(29)1-503-503

A photograph of an industrial facility, likely a refinery or chemical plant, at dusk. The sky is a mix of blue and orange. In the foreground, there are several large storage tanks and complex piping systems with blue and red railings. A tall, slender distillation column stands prominently in the background, topped with bright lights that create a starburst effect. The ground is covered in snow.
